[priyanshi3625@gmail.com](mailto:priyanshi3625@gmail.com) ◊ [LinkedIn](#) ◊ [GitHub](#) ◊ [Portfolio](#)

## OBJECTIVE

---

Frontend Developer specializing in React.js and Next.js applications. Built AI-powered tools, real-time platforms with Firebase, and optimized web experiences that load 40% faster. Proficient in TypeScript, Redux Toolkit for state management, and creating engaging interfaces with Tailwind CSS, GSAP, Framer Motion, and Three.js. Experienced integrating RESTful APIs and implementing secure authentication with Firebase and JWT.

## EDUCATION

---

**Bachelor of Computer Application**, University of Rajasthan 2023-2026  
Jaipur, Rajasthan Pursuing

## SKILLS

---

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3  
**Frontend:** React.js, Next.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap  
**Animation & 3D:** GSAP, Framer Motion, React Three Fiber (Three.js)  
**State & APIs:** TanStack Query (React Query), Axios, RESTful APIs, Firebase (Firestore + Auth)  
**Database & Auth:** MongoDB, JWT Authentication  
**DevOps & Tools:** Git/GitHub, GitHub Actions, NPM, VS Code

## EXPERIENCE

---

**Frontend Developer** Dec 2025 - Present  
Fonix Technologies *Jaipur (On-Site)*

- Architected and shipped a production e-commerce platform using React.js and Redux Toolkit, implementing product catalog, advanced filtering, shopping cart, and secure user authentication.
- Optimized component rendering and state management, reducing re-renders by 30% and improving perceived load time.
- Collaborated in an Agile environment with designers and backend engineers to deliver pixel-perfect, API-integrated features on tight deadlines.

**MERN Stack Intern** Aug 2025 - Oct 2025  
Edutantr *Bangalore, Karnataka*

- Contributed to a restaurant ordering platform using the MERN stack, implementing menu browsing, cart management, and order submission features under senior developer mentorship.
- Integrated RESTful APIs with React frontend, ensuring seamless data flow between client and server for real-time order processing.
- Participated in code reviews and pair programming sessions, improving code quality and learning best practices for scalable application architecture.

## PROJECTS

---

**AI Resume Analyzer** *Next.js, Gemini API, Framer Motion*

- Engineered an AI-powered resume analyzer using Google Gemini API to evaluate ATS compatibility, skill gaps, and job-fit scoring with actionable improvement suggestions across 15+ criteria.
- Implemented intelligent job description matching algorithm to generate compatibility scores and identify missing keywords.

- Built robust error handling with fallback mechanisms, ensuring 99% uptime during API rate limits.

- [Live Link](#)

### **Emora – AI Emotional Wellness Platform**

*Next.js, Tailwind, Firebase, Open Router API*

- Developed a full-stack mental wellness platform with GPT-powered journaling assistant, enabling users to track emotional patterns and receive personalized insights.
- Built an interactive mood analytics dashboard with time-series visualizations across daily, weekly, and monthly intervals.
- Architected secure authentication and real-time data synchronization using Firebase, handling concurrent user sessions with optimistic UI updates.

- [Live Link](#)

### **High-Performance Blog Platform**

*Next.js, MongoDB, React Three Fiber*

- Architected a full-stack blogging platform with SSR/ISR optimization, reducing initial load time by 40% and supporting authenticated CRUD operations with media uploads.
- Implemented JWT-based authentication with HTTP-only cookies and refresh token rotation for secure session management.
- Developed an immersive 3D hero section using React Three Fiber with optimized rendering performance (60fps on mid-range devices).

### **ADDITIONAL SKILLS**

---

- UI/UX design experience with Figma and Canva for creating modern web interfaces
- Photography and videography with focus on visual storytelling and composition
- Deployment and automation practice with CI/CD pipelines, GitHub Actions, and PM2 for process management
